

PRI+ : Keep What You Have, Add What You Want!

So what is PRI+

PRI+ is the perfect way to customize your existing phone system.

PRI+ is an ideal solution for businesses looking to leverage their existing PBX investment, boosting their phone system's capabilities, all while benefiting from the enhanced capabilities that hosted telephony brings.

So who needs PRI+

Simply put, this is a product for businesses who demand more out of their existing phone system.

Key Benefits:

- Keep what you have, add what you want.
- More features, with greater flexibility at a more competitive price
- No additional equipment investment
- The ideal solution for growing companies
- Reliable, scalable, cost-effective

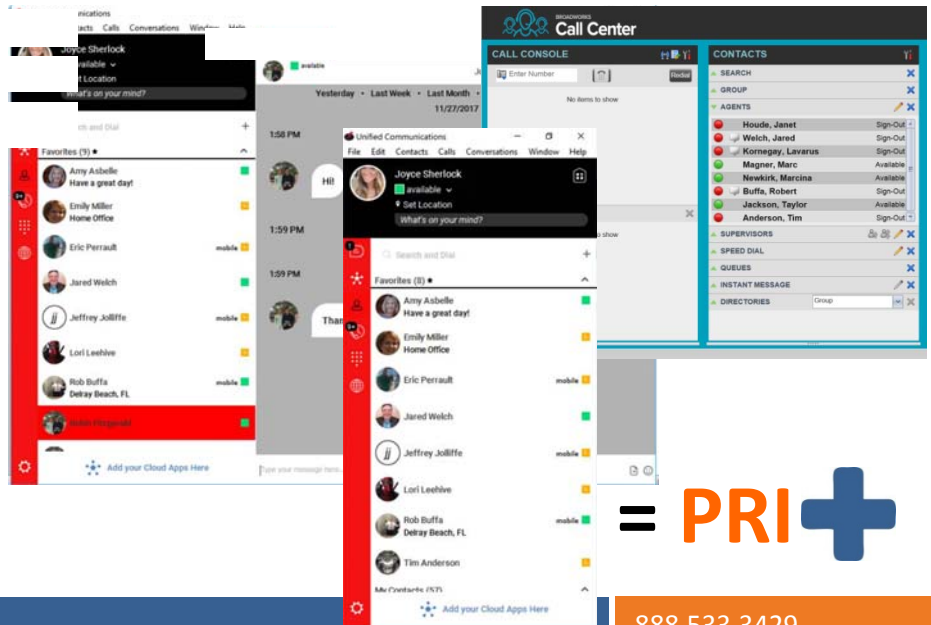

Delivering the power of Unified Communications to your current phone system.

UC Trunking is the perfect solution for legacy phone systems to take advantage of all the latest UCaaS technologies and features. Services can be layered onto a traditional PRI or SIP handoff according to specific needs. Our Unified Communications offering brings together all real-time services such as instant messaging, presence, voice and video calling, conferencing, file sharing and desktop collaboration into a convenient application.

Key Features:

- **Presence** – Indicator displays status, location and time zone
- **Instant Messaging** - Send and receive messages, or initiate a group chat to get answers quickly
- **Integrated business calling capabilities** – Access calling features for inbound and outbound calls.
- **Desktop Sharing** – Share project plans with the internal team, or work products, contracts, or other media with customers and partners.
- Unlimited local and long distance
- Superior voice quality and reliability

One Simple Equation:

= PRI+
