

Meeting you on the technology curve.

We provide voice and data solutions across all mediums to enterprises and SMBs alike.

- **Everything, Everywhere.** From traditional voice and data services to leading edge IP-based solutions, we have what you need.
- **Nationwide Footprint.** Access Point is the gateway to the best available underlying networks while delivering unparalleled solutions, personal service and savings to our customers.
- **Partnerships.** Whether supporting growth, migrating to a new technology or collaborating on unique service terms, we will partner with you to achieve your customer's goals, even as they evolve.
- **Consolidated Billing.** We specialize in helping companies manage their communications more effectively. Our industry-leading, robust billing and order management system allows us to provide the invoicing for all locations under a single customized hierarchy.
- **Customer First.** API prides itself in managing the customer relationship. Our goal will always be "Customer First".

Growing strong since 1996

We're proud of our strong technology reputation and 20 years of experience!

Our Mission

We will be our customer's Access Point for all of their telecommunications needs.

Our Customers

We offer services to customers of all sizes across many sectors including healthcare, retail, hospitality, government, energy, restaurants, transportation, utility, finance, technology, grocery, and many more.

Our Specialty

Access Point is a premier IP Telephony solutions provider utilizing the market leading VoIP application server from Broadsoft, one of the most extensive interoperability platforms in the industry.

Our agent program continues to grow by offering Channel Partners dedicated major account support, flexible contracts and the most aggressive commissions and spiffs in the industry!

We are the single access point for all of your telecom needs.
